Question 1

Correct

Marked out of 5.00

Create interfaces shown below.

```
interface Sports {
    public void setHomeTeam(String name);
    public void setVisitingTeam(String name);
}
```

```
interface Football extends Sports {
    public void homeTeamScored(int points);
    public void visitingTeamScored(int points);
}
```

create a class College that implements the Football interface and provides the necessary functionality to the abstract methods.

sample Input:

Rajalakshmi
Saveetha
22
21

Output:

Rajalakshmi 22 scored
Saveetha 21 scored
Rajalakshmi is the Winner!

For example:

| Test | Input | Result |
|------|-------------------------------------|---|
| 1 | Rajalakshmi Saveetha 22 21 | Rajalakshmi 22 scored Saveetha 21 scored Rajalakshmi is the winner! |

Answer: (penalty regime: 0 %)

Reset answer

```
1 import java.util.Scanner;
2
3 interface Sports {
4     void setHomeTeam(String name);
5     void setVisitingTeam(String name);
6 }
7
8 interface Football extends Sports {
9     void homeTeamScored(int points);
10    void visitingTeamScored(int points);
11 }
12
13 class College implements Football {
14     private String homeTeam;
15     private String visitingTeam;
16     private int homeTeamPoints = 0;
17     private int visitingTeamPoints = 0;
18
19     public void setHomeTeam(String name) {
20         this.homeTeam = name;
21     }
22
23     public void setVisitingTeam(String name) {
24         this.visitingTeam = name;
25     }
26
27     public void homeTeamScored(int points) {
28         homeTeamPoints += points;
29     }
30
31     public void visitingTeamScored(int points) {
32         visitingTeamPoints += points;
33     }
34
35     public void displayScore() {
36         System.out.println(homeTeam + " " + homeTeamPoints + " scored");
37         System.out.println(visitingTeam + " " + visitingTeamPoints + " scored");
38         if (homeTeamPoints > visitingTeamPoints) {
39             System.out.println(homeTeam + " is the Winner!");
40         } else if (visitingTeamPoints > homeTeamPoints) {
41             System.out.println(visitingTeam + " is the Winner!");
42         } else {
43             System.out.println("It's a tie!");
44         }
45     }
46 }
```

```

28     homeTeamPoints += points;
29     System.out.println(homeTeam + " " + points + " scored");
30 }
31
32 public void visitingTeamScored(int points) {
33     visitingTeamPoints += points;
34     System.out.println(visitingTeam + " " + points + " scored");
35 }
36
37 public void winningTeam() {
38     if (homeTeamPoints > visitingTeamPoints) {
39         System.out.println(homeTeam + " is the winner!");
40     } else if (homeTeamPoints < visitingTeamPoints) {
41         System.out.println(visitingTeam + " is the winner!");
42     } else {
43         System.out.println("It's a tie match.");
44     }
45 }
46 }
47
48 public class Main {
49     public static void main(String[] args) {
50         Scanner sc = new Scanner(System.in);
51
52         // Get home team name

```

| | Test | Input | Expected | Got | |
|---|------|-------------------------------------|---|---|---|
| ✓ | 1 | Rajalakshmi Saveetha 22 21 | Rajalakshmi 22 scored Saveetha 21 scored Rajalakshmi is the winner! | Rajalakshmi 22 scored Saveetha 21 scored Rajalakshmi is the winner! | ✓ |
| ✓ | 2 | Anna Balaji 21 21 | Anna 21 scored Balaji 21 scored It's a tie match. | Anna 21 scored Balaji 21 scored It's a tie match. | ✓ |
| ✓ | 3 | SRM VIT 20 21 | SRM 20 scored VIT 21 scored VIT is the winner! | SRM 20 scored VIT 21 scored VIT is the winner! | ✓ |

Question 2

Correct

Marked out of 5.00

RBI issues all national banks to collect interest on all customer loans.

Create an RBI interface with a variable `String parentBank="RBI"` and abstract method `rateOfInterest()`.

RBI interface has two more methods default and static method.

```
default void policyNote() {
    System.out.println("RBI has a new Policy issued in 2023.");
}

static void regulations(){
    System.out.println("RBI has updated new regulations on 2024.");
}
```

Create two subclasses SBI and Karur which implements the RBI interface.

Provide the necessary code for the abstract method in two sub-classes.

Sample Input/Output:

RBI has a new Policy issued in 2023

RBI has updated new regulations in 2024.

SBI rate of interest: 7.6 per annum.

Karur rate of interest: 7.4 per annum.

For example:

| Test | Result |
|------|---|
| 1 | RBI has a new Policy issued in 2023 RBI has updated new regulations in 2024. SBI rate of interest: 7.6 per annum. Karur rate of interest: 7.4 per annum. |

Answer: (penalty regime: 0 %)

```
1 interface RBI {
2
3     // Variable declaration
4
5     String parentBank = "RBI";
6
7     // Abstract method
8     double rateOfInterest();
9
10    // Default method
11    default void policyNote() {
12        System.out.println("RBI has a new Policy issued in 2023");
13    }
14
15    // Static method
16    static void regulations() {
17        System.out.println("RBI has updated new regulations in 2024.");
18    }
19 }
20
21 // SBI class implementing RBI interface
22 class SBI implements RBI {
23     // Implementing the abstract method
24     public double rateOfInterest() {
25         return 7.6;
26     }
27 }
28
29 // Karur class implementing RBI interface
30 class Karur implements RBI {
31     // Implementing the abstract method
32     public double rateOfInterest() {
33         return 7.4;
34     }
35 }
```

```
30 class Karur implements RBI {
31     // Implementing the abstract method
32     public double rateOfInterest() {
33         return 7.4;
34     }
35 }
36
37 // Main class to test the functionality
38 public class Main {
39     public static void main(String[] args) {
40         // RBI policies and regulations
41         RBI rbi = new SBI(); // Can be any class implementing RBI
42         rbi.policyNote();     // Default method
43         RBI.regulations();    // Static method
44
45         // SBI bank details
46         SBI sbi = new SBI();
47         System.out.println("SBI rate of interest: " + sbi.rateOfInterest() + " per annum.");
48
49         // Karur bank details
50         Karur karur = new Karur();
51         System.out.println("Karur rate of interest: " + karur.rateOfInterest() + " per annum.");
52     }
}
```

| | Test | Expected | Got | |
|---|------|---|---|---|
| ✓ | 1 | RBI has a new Policy issued in 2023 RBI has updated new regulations in 2024. SBI rate of interest: 7.6 per annum. Karur rate of interest: 7.4 per annum. | RBI has a new Policy issued in 2023 RBI has updated new regulations in 2024. SBI rate of interest: 7.6 per annum. Karur rate of interest: 7.4 per annum. | ✓ |

Question 3

Correct

Marked out of 5.00

create an interface Playable with a method play() that takes no arguments and returns void. Create three classes Football, Volleyball, and Basketball that implement the Playable interface and override the play() method to play the respective sports.

```
interface Playable {
    void play();
}

class Football implements Playable {
    String name;
    public Football(String name){
        this.name=name;
    }
    public void play() {
        System.out.println(name+" is Playing football");
    }
}
```

Similarly, create Volleyball and Basketball classes.

Sample output:

```
Sadhvin is Playing football
Sanjay is Playing volleyball
Sruthi is Playing basketball
```

For example:

| Test | Input | Result |
|------|-----------------------------|---|
| 1 | Sadhvin Sanjay Sruthi | Sadhvin is Playing football Sanjay is Playing volleyball Sruthi is Playing basketball |
| 2 | Vijay Arun Balaji | Vijay is Playing football Arun is Playing volleyball Balaji is Playing basketball |

Answer: (penalty regime: 0 %)

```
1
2
3 import java.util.Scanner;
4
5
6 // Define the Playable interface
7 interface Playable {
8     // Abstract method to play the respective sport
9     void play();
10 }
11
12 // Football class implementing Playable interface
13 class Football implements Playable {
14     String name;
15
16     // Constructor
17 public Football(String name) {
18     this.name = name;
19 }
20
21 // Override the play method
22 public void play() {
23     System.out.println(name + " is Playing football");
24 }
25 }
```

```
26 // Volleyball class implementing Playable interface
27
28 class Volleyball implements Playable {
29     String name;
30
31     // Constructor
32     public Volleyball(String name) {
33         this.name = name;
34     }
35
36     // Override the play method
37     public void play() {
38         System.out.println(name + " is Playing volleyball");
39     }
40 }
41
42 // Basketball class implementing Playable interface
43 class Basketball implements Playable {
44     String name;
45
46     // Constructor
47     public Basketball(String name) {
48         this.name = name;
49     }
50
51     // Override the play method
52     public void play() {
```

| | Test | Input | Expected | Got | |
|---|------|-----------------------------|---|---|---|
| ✓ | 1 | Sadhvin Sanjay Sruthi | Sadhvin is Playing football Sanjay is Playing volleyball Sruthi is Playing basketball | Sadhvin is Playing football Sanjay is Playing volleyball Sruthi is Playing basketball | ✓ |
| ✓ | 2 | Vijay Arun Balaji | Vijay is Playing football Arun is Playing volleyball Balaji is Playing basketball | Vijay is Playing football Arun is Playing volleyball Balaji is Playing basketball | ✓ |
